Achieve employees' value
Assume social responsibility

我们的愿景：
让我们的客户成为优秀企业
让优秀企业成为我们的客户

Our vision:
Support our clients become outstanding enterprises
Attract the outstanding enterprises to be our clients

我们的历史 About US

安必成公司自一九九九年成立起，便一直专注于认真了解客户的各类需求，研制他们所需要的关键部件，协助客户解决他们的技术挑战。

通常，我们的部件隐之示人，它们埋置在更大的结构，机器、车辆，各类设备之中，并对这些设备的功能起着至关重要的作用。例如：密封、减震、降噪、耐化学品服饰等。因此，我们的产品不可或缺。我们制造高精制作的部件，使整个世界得以运行不息。我们坚持力求创新，奋发向上，帮助客户挖掘问题的根源，提供经久耐用的解决方案

我们的目标就是准确满足客户需求，发挥关键作用，构建起强大的信誉。并将这种信誉保持成为安必成公司的特征标记。

我们始终与时俱进，与客户俱进，将满足客户需求作为己任，伴随客户迈向广阔的未来。

Ambition Technology was founded in 1999. We have been focused on understanding various needs of our customers, including the manufacture of key components in need as well as solutions to technical challenges. The components we produced are usually invisible to people, for they are installed in larger structures, machines, vehicles and various types of equipment where they play a vital role of functionality. For example: sealing, shock absorption, noise reduction, chemical resistant clothing, etc. Therefore, our products are indispensable. We manufacture high-precision components which enable the whole world to operate continuously. Our employees make progress with high and vigorous spirits to help customers trace the source of problems and provide durable solutions.

We pursue our goal of meeting customers' demands with accuracy, playing a key role and building a strong reputation, which will become the characteristic of Ambition Precision Technology.

Always keeping up with the times, we consider our customers' demands as our mission and accompany them towards a brighter future.

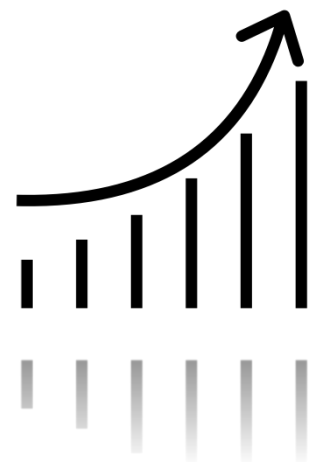

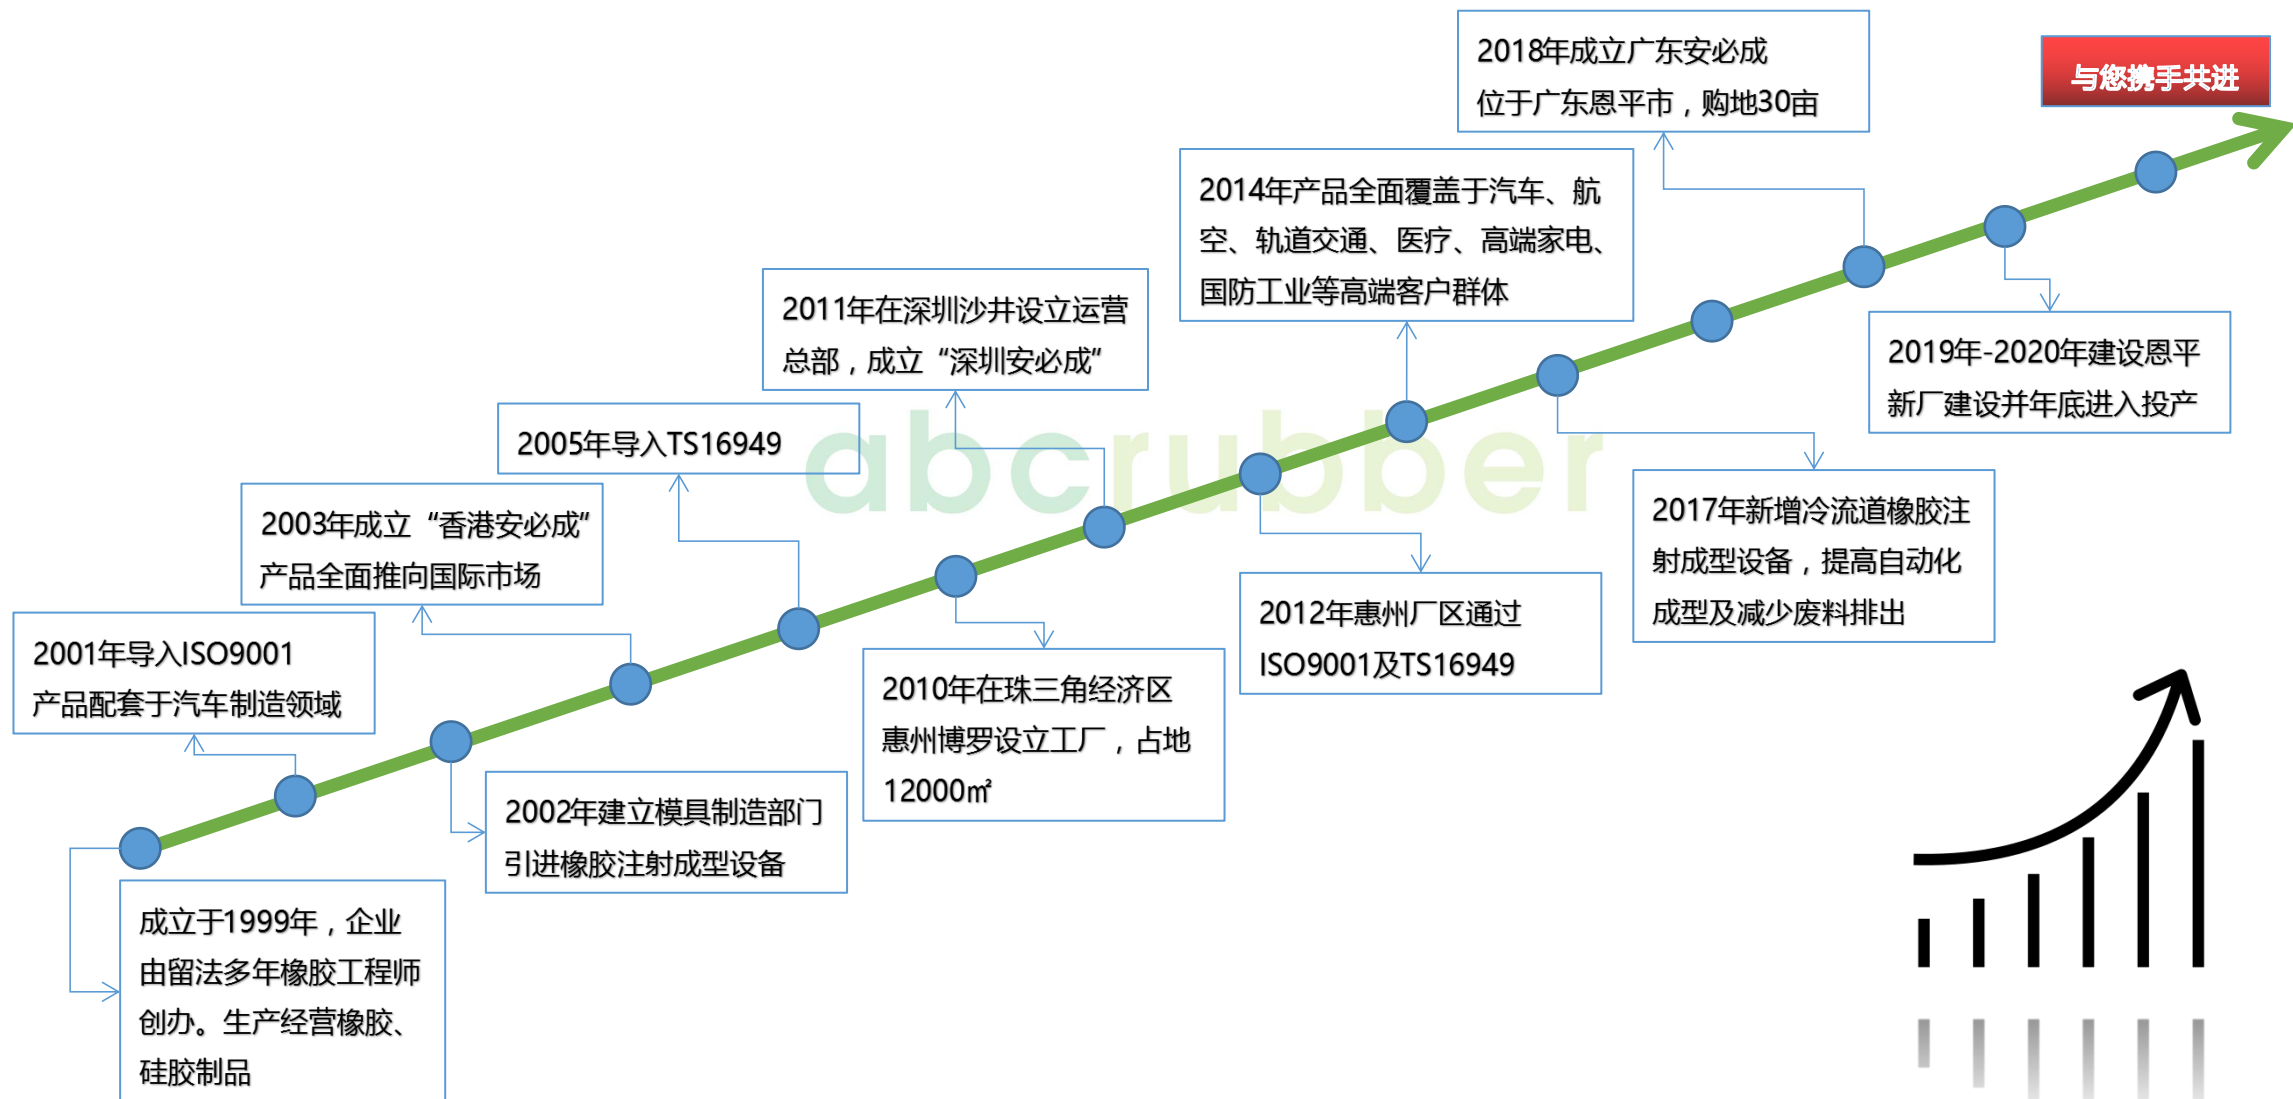

1999年成立初期，始建于深圳宝安
